Possible Woman Leadership Conference 2002:

Wed, February 13, 2002

Wind Enterprises, Inc. will host the fifth annual Possible Woman Leadership Conference on April 16-17, 2002 in Atlanta at the Georgia World Congress Center under the theme: "We Are One World...Women Creating the Future."

Conference keynote speakers include Benazir Bhutto, former prime minister of Pakistan; Johnnetta Cole, Ph.D., president emerita of Spelman College and professor emerita of Emory University; and Betty Lentz Siegel, Ph.D., president of Kennesaw State University.

The conference features three tracks of workshops with five themes of universal appeal to women: Leadership for a New World, Workplace Savvy, Personal Growth, Quantum Health, and Leading the Next Generation.

Conference workshops include:

- Energy for Working Women - Never Be Tired Again
- How to Run an Effective and Successful Meeting
- Personal Communication Skills for Women
- Smart Investing - the Cornerstone of Your Future
- Mentoring the Next Generation
- Women of Power and Vision
- Goal Setting for Optimum Performance
- Balance and Health for the New Millennium

This year, Wind Enterprises has established the Possible Woman Foundation to provide conference scholarships to deserving women who would not be able to attend otherwise.

Started by Linda Wind, president of Wind Enterprises Inc., Possible Woman Leadership Conferences have been successfully promoting women's issues since 1985.

"The April 2002 Leadership Conference is an outstanding opportunity for women from all walks of life to come together and take control of their careers, become better leaders and make significant contributions to their community," said Wind. "The synergy that develops during a conference of this magnitude is truly a phenomenon."
